COMPANY PROFILE

For decades the Nolan Group has been Australia's leading supplier of Fibre-bonded commercial floorcoverings.

This program started back in the early 1970's where in collaboration with Autex Industries, a successful program was developed.

Autex were manufacturers of a world renown range of fibre-bonded commercial carpets and the Nolan Group with their network across Australia were their Australian partners. This partnership evolved and went from strength to strength. It wasn't long before the Autex range of carpets was considered the benchmark for heavy duty commercial flooring. By their very nature, fibre bonded carpets are 'bullet proof'. Hard wearing and stain resistance is only the beginning. It's no surprise that applications such as school classrooms, retail stores and sporting stadiums all over Australia are covered in the Nolan Carpets.

As often happens with many successful companies, business direction can change. In synergy with their carpet program, Autex were building a successful interior acoustics product portfolio. This product sector grew and became so popular they had to make a very difficult decision. In 2018, they announced they would exit manufacturing commercial carpet to focus on interior acoustics. Throughout the 12 months that followed, Autex worked in partnership with the Nolan Carpet product development team to establish a new manufacturer of fibre bonded carpets. Using the same manufacturing techniques, fibre supplier and specification fibre, the 2019 Nolan Carpets fibre-bonded collection is almost a clone of its predecessor with a few additional bells and whistles.

The 2019 Nolan Carpets Fibre-Bonded Collection is manufactured by English based company, Heckmondwike, who themselves have decades of manufacturing experience. Our next generation of Nolan Fibre-bonded Carpets will continue to raise the bar for performance and functionality.

TECHNICAL DATA

Total Weight (gsm)	1020
Roll Width (cm)	200
Roll Length (m)	30
Fire Retardancy (FR)	ISO 9239.1 2003: 2.5kW/m ² , sv121%.min
Warranty	10 year Indoor 3 year Outdoor

FEATURES & BENEFITS

- UV stabilised
- Non-rip or fray
- Durable & hardwearing
- Fire retardant
- Stain resistant
- Static neutral
- Anit-slip

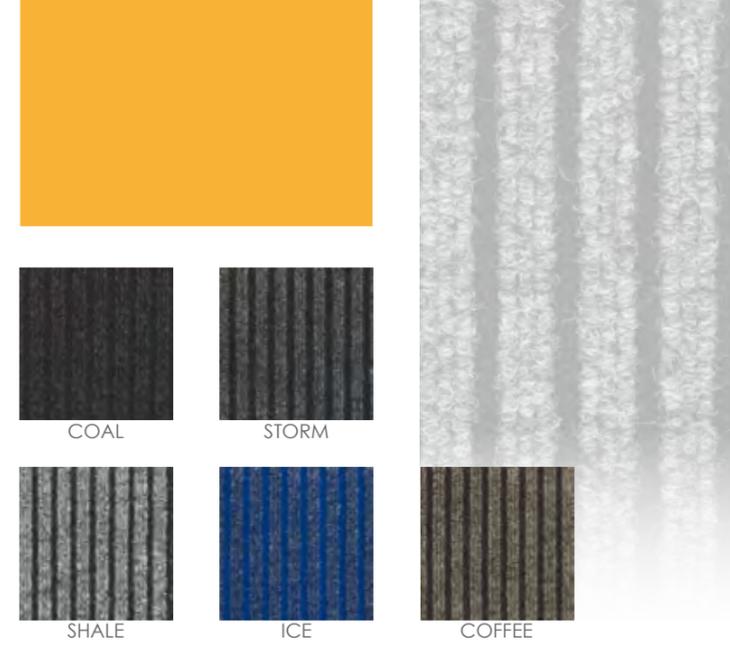

Hobnail Carpet features a cobbled diamond pattern, providing a textured commercial floorcovering. The design is unique and combines perfectly with the traditional performance you would expect from a fibre-bonded commercial carpet.

Decord

Decord is a heavy duty commercial carpet suitable for both indoor and outdoor applications. For decades it has been performing without compromise and has become legendary in fibre-bonded floorcoverings. The classy two-tone finish combines with bullet proof performance to offer a perfect solution for commercial and marine environments.
