

KATTO

G X 2 0 0

Katto is the Japanese term for cut which is appropriate for this family of products. Katto is a plush cut pile carpet tile, available in a wide selection of colours. The range is also available in a variety of finishes that can be used to compliment, or as an alternative to the standard Katto collection. Katto Metal has a stainless steel shape set into the centre of the tile offering a classy finish for a strong statement. Katto Emboss starts as the standard product and has a pattern applied using heat embossing technology. The options for design freedom are endless and only limited by your imagination.
