Interior/Exterior Upholstery Fabric

CORDOVA

ULTRA2

Cordova Ultra 2 is the ideal choice for use in healthcare, aged care, hospitality and education facilities where cleanliness, infection control and performance are paramount. Through careful design and manufacturing, Cordova Ultra 2 exceeds the rigorous testing standards required for furniture used in the healthcare industry. Beyond healthcare settings, the innovative fabric is suitable for seating in marine, outdoor and high-traffic commercial and residential areas. Manufactured in a state-of-the-art facility, using cutting edge technology, the modern colour palette aligns with current trends and allows interior designers and fabricators to pair the fabric easily for maximum consumer appeal. The vibrancy and performance of Cordova Ultra 2 vinyl endure, even with ongoing exposure to sun, salt and nature's elements.

FEATURES & BENEFITS

Protective coating for easy care and maintenance

Cordova Ultra 2 is coated with a market-leading anti-graffiti lacquer for enduring protection and easy care and maintenance. Not only will the protective coating shield the upholstery surface in harsh environments, but it also offers a unique finish that allows most stubborn stains and graffiti to be released from the fabric with minimal effort.

State-of-the-art construction

Engineered to withstand harsh commercial environments, yet feel soft and delicate for high-end interiors, Cordova Ultra 2 has a unique combination of resilience and comfort.

Robust protection against bacteria

Cordova Ultra 2 is protected with a robust fungicide that controls a range of odours, stains and bacterial growths – creating a fresh environment and maintaining a hygienic surface for commercial environments. Tested against AS1157.

Abrasion resistance

Cordova Ultra 2 exceeds the heavy-duty commercial requirements for the Australian Standard - Textiles for Commercial Upholstery and the Commercial Textile Association of Australia. ASTM D4157 Wyzenbeek, 100,000+ cycles. Martindale Abrasion: EN ISO 12947:1999 Part 2, 12kpa, >300,000 cycles.

Fire retardant

Cordova Ultra 2 complies with the Building Code of Australia requirements for all commercial areas. AS1530-3: Smoke index max. 5, Spread of Flame 0. AS1441.13, L&T 50mm/min max.

UV stabilised

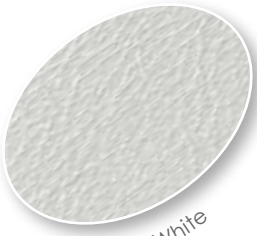

Cordova Ultra 2 is developed to withstand the harsh Australian elements and can be used in outdoor applications. QUV: ASTM D-4329, 650 hours.

CARE & MAINTENANCE GUIDE

Cordova Ultra has been designed to provide years of service with an easy care and maintenance schedule. Following this Care & Maintenance guide regularly will enhance the life expectancy and help maintain the fabric's original appearance.

General Cleaning – Regularly clean fabric with a solution of mild soap and water using a soft cloth or towel. Rinse thoroughly with fresh water and wipe dry.

Spot Cleaning – Spills and general marking are inevitable in a commercial environment. Prompt attention to the affected area will minimise the chance of staining or fabric degradation. If a stain cannot be cleaned using the general cleaning instructions, clean the affected area with methylated spirits. Rinse thoroughly with fresh water and wipe dry.

Disinfection – In some commercial environments such as healthcare, it is necessary to disinfect the upholstery surface. When required, clean the fabric using the general cleaning instructions then using a solution of 10% bleach and 90% water, wipe the surface for a second time. Rinse thoroughly with fresh water and wipe dry. Constant cleaning using this method may affect the fabric's life expectancy.

NOTE

- Do not use abrasive cloths or cleaners
- Do not use aggressive cleaners or chemicals
- Do not use vinyl conditioners such as ArmorAll®
- When in doubt contact your local Nolan Group branch for further advice
