Long-lasting colours

Dickson® fabrics are woven exclusively from Sunacryl solution-dyed acrylic fibres. Designed by the Dickson® R&D department, this premium acrylic fibre is solution-dyed: the colour pigments are incorporated at the time of manufacture, and not afterwards. The solution-dyed thread used to make Dickson® fabrics ensures long-lasting resistance to UV rays and weather conditions. Even when exposed to strong sunlight, the fabric retains its vivid colour for a very long time.

Care and cleaning made easy

Finished with CLEANGUARD®, a special anti-dirt and waterproofing treatment for awnings, you can simply brush off any loose dirt with a soft brush, hose down and clean with a mild soap in lukewarm water (37°C). Rinse thoroughly to remove soap. DO NOT use detergents. Allow to air dry.
