Product Features

Protective finish for easy maintenance - The new PermaShield coating takes the protection and care of upholstery fabrics to a new level. Not only will it protect the upholstery surface in any harsh environment, it now offers the unique 'Anti Graffiti' finish which helps control stubborn stains and graffiti.

Soft formulation - Regularly clean fabrics with a solution of mild soap and water using a soft cloth or towel. Rinse thoroughly with fresh water and wipe dry.

Meets Australian FR standards for use in all commercial areas - Tested to Australian FR standard AS1530.3

Tear resistance - Exception resistance to tearing by wing-rip method. Tested to AS2001.2.10-1986.

Smouldering cigarette will not ignite upholstery material.

UV stabilised - Prevents cracking & wear from the sun's damaging rays. Colour fastness to light: AS1441.11

Abrasion resistance - Wyzenbeck: AS2001.2.30 100,000+ cycles

Built-in protection from microbial and fungal attack and staining, odours & structural degradation that can accompany it. Tested to AS1 157 leaching method with 0 rating for fungal growth.

Nolan Group 2 year warranty.

Care & Maintenance Guide

Capri upholstery fabrics are designed for ease of maintenance providing years of service. Following this Care & Maintenance guide regularly will enhance the life expectancy and maintain the fabric's original appearance.

General Cleaning - Regularly clean fabrics with a solution of mild soap and water using a soft cloth or towel. Rinse thoroughly with fresh water and wipe dry.

Spot Cleaning - Spills and general marking is inevitable in a commercial environment. Prompt attention to the affected area will minimise the chance of staining or fabric degradation. If a stain cannot be cleaned using the general cleaning instructions, clean the affected area with a solution of 30% methylated spirits and 70% water. Rinse thoroughly with fresh water and wipe dry.

Disinfection - In some commercial environments such as healthcare, it is necessary to disinfect the upholstery surface. When required, clean the fabric using the general cleaning instructions then using a solution of 10% bleach and 90% water, wipe the surface for a second time. Rinse thoroughly with fresh water and wipe dry. Constant cleaning using this method may affect the fabric's life expectancy.

Note - Do not use abrasive cloths or cleaners, do not use aggressive cleaners or chemicals, do not use vinyl conditioners such as Armor All®, when in doubt contact your local Nolan Group branch for further advice.
