

StormShield™ - the cutting-edge marine and awning fabric; designed to revolutionise your outdoor experience. Crafted with solution-dyed staple fibre and spun yarn, StormShield™ provides exceptional colour consistency, performance, and durability.

Compared to acrylic, StormShield™ stands out with its lighter weight, while still providing superior strength-to-weight ratio, enhanced abrasion resistance, breathability, and effortless handling and storage.

What's more, StormShield™ boasts eco-friendly credentials, with 99% of its polyester fibres recyclable through mechanical and technical processes.
