PROTEX CANVAS

Protex Canvas offers a comprehensive range of high-quality canvas solutions designed to meet diverse needs.

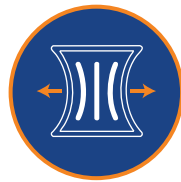

For lighter applications, use Protex Canvas 6, a premium lightweight and weather-resistant fabric ideal for tents. As a light-medium weight option, Protex Canvas 8 features a unique tight weave, perfectly suited for campervans. Moving into heavier-duty solutions, we offer Protex Canvas 12, a versatile medium-weight fabric providing superior protection for durable covers and shelters. Protex Canvas RS is engineered for demanding applications like large semi-trailer trucks and trailer tarpaulins with its heavy-duty strength, RS weave, and a proofed treatment.
