AWNING SYSTEMS

The Art of Outdoor Living

Aluxor folding arm awnings and retractable pergolas bring German-engineered precision and European elegance to your home. Crafted with top-quality materials, they are built to last, instantly transforming your balcony into a shaded sanctuary or your patio into an all-season entertaining area.

Our Range

Your Space Transformed

Seamlessly extend your home, turning patios and decks into truly livable rooms.

We deliver comfort and style for spaces of all sizes. Whether you need a simple solution for summer or a more substantial all-year-round solution, our folding arm awnings and shared pergolas offer:

Superior protection

Enjoy cool, shaded comfort with industry-leading UV and glare reduction

Effortless European style

Enhance your property value with elegant design and quality materials

Trusted by Australians for over 40 years

Which Awning is Right for You?

Stratos III

Enjoy lasting shade and style with the Stratos III — a sleek, fully retractable, enclosed awning that protects itself from dirt and corrosion, blends effortlessly with any home or shopfront, and offers the flexibility of custom colours, motorised operation, and optional LED lighting.

Eco

Enjoy high-quality shade at an affordable price with the Eco awning — a versatile, German-designed system offering reliable performance and manual or motorised operation where the mechanism and fabric bundle are not enclosed.

Sundream

Experience powerful sun and heat protection with the Sundream range of durable, motorised, retractable awnings that run smoothly in tensioned guide rails for maintenance-free performance. Designed for flexibility, they can be fully integrated with new structures or retrofitted to existing decks, courtyards, verandahs, pergolas, glass conservatories, and other building designs, all in your choice of colour.

Aluxor Stratos III

Corrosion-Free Shade

All-Season Control

For a more premium solution or for those wanting to cover larger areas, the Stratos III provides a stronger, more durable option. The cassette design shields the fabric and mechanisms when retracted, keeping your awning looking and functioning like new for years. German-engineered, it can span wide spaces with impressive stability, making it perfect for large outdoor entertainment areas.

Seamless integration

Extend your living space with shade and protection

Elegant design

Slim lines and modern finishes

Flexible control

Manual, motorised, or smart home automation options

Premium durability

Engineered to last

Cassette protection

Protects the fabric and mechanisms when retracted

Aluxor Eco

Effortless Comfort

Everyday Value

The Eco is ideal for smaller spaces like courtyards, balconies, or compact patios. With its slimline, open roll design, it subtly complements your home's exterior while offering dependable shade and UV protection. Affordable without sacrificing quality, the Eco suits homeowners seeking everyday comfort and a sleek, modern look.

Family-focused comfort

Create reliably cool, shaded areas perfect for shared meals and everyday relaxation

Affordable reliability

Trusted quality at an accessible price

Convenient operation

Manual or motorised options

Quality you can afford

Trusted reliability and German-level precision at an accessible price point

Aluxor Sundream Retractable Pergolas

With various models covering up to 39m², the automated Sundream range provides a perfectly customisable sunshade solution for your home. Designed for installation with either a fully integrated mounting frame or as a retrofit to an existing structure, the system suits pergolas, glass conservatories, courtyards, and free-standing pavilions.

Engineered to enhance outdoor living without permanently blocking natural light, the Sundream conservatory and pergola awning transforms exposed spaces into incredible, comfortable retreats for families and friends to gather in style. With multiple models and installation options, the Sundream is a versatile shading solution that adapts beautifully to your home.

Why Homeowners Choose Sundream

Chosen for its sleek, slimline design and sturdy operating mechanism, the Sundream seamlessly integrates with your home's architecture while providing reliable shade and UV protection, letting you enjoy all-year-round comfort and style.

Flexible shading

Extend fully or partially to control light and comfort

Customisable solutions

Suited for pergolas, glass conservatories, courtyards, or free-standing pavilions

Smooth operation

Internal springs and Kevlar drive tapes keep fabric tensioned and neat

Corrosion free storage

Extruded aluminium cassette and guiderails provide optimal protection

High load rating

Ensures the fabric is always under tension

Wind rated

Up to 38-49km/hour

Cover large areas

Up to 39m² coverage by a single unit

Automate your pergola

Remote control or hardwired motor operation for quick and easy awning extension

Reacts automatically to the weather

Wind, motion, sun, rain and timer sensors available

Flexible fabric choice

Choose from acrylic, PVC and mesh fabrics

Built to last

Premium aluminium frames, European-certified performance, and a 5-year warranty

Overhead and vertical protection with one system

The Steer-Around Sundream option allows the awning direction to change one or more times at any angle up to 90°

Elegant, modern design that enhances
the look and value of your home
