

AUTOFLEX TONNEAU 220CM

HEAVY-DUTY PVC COATED HIGH TENSILE WOVEN
POLYESTER FOR UTILITY TRAYS, CANOPY COVERS
AND PROTECTIVE OUTDOOR APPLICATIONS.

AUTOFLEX TONNEAU 220CM

Redefine utility protection with the AutoFlex Tonneau 220cm. Engineered for demanding heavy-duty applications, the AutoFlex Tonneau 220cm makes it easier to manufacture high-quality covers while providing your customers with a superior shield for any ute tray. Featuring a Rip-stop finish and an advanced formulation with low shrinkage, this fabric ensures a lasting, professional fit that withstands the elements.

As the widest tonneau material on the market, the AutoFlex Tonneau 220cm offers unparalleled flexibility. The expansive 220 cm width provides the essential reach required for wide tabletop trays and reduces the need for complex joins, allowing for a cleaner finish and a more efficient workflow.
