

## SUPERSCREEN MESH 239

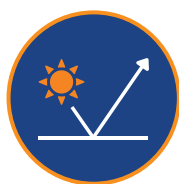

LIGHTWEIGHT SCREENING MESH ENGINEERED FOR  
TENTS, CARAVAN ANNEXES AND CAMPER-TRAILERS

# SUPERSCREEN MESH 239

Superscreen 239 is Hiraoka's mid-weight screening fabric, offering the optimum balance between insect protection and airflow for camping in the great outdoors. Built on a durable PVC-coated polyester construction, it delivers a 60% shade factor (40% light transmission) and a robust 1,306 N/50mm tensile strength at just 170 gsm - striking the perfect practical balance for applications requiring visibility, airflow, shade control, and strength.
