

## MOROCA LINE / The New Collection from Nolan Carpets

### Key Project / Sacred Heart College, Somerton Park, SA

Nolan Carpets are pleased to see [Moroca Line](#), one of TOLI's latest designs installed at South Australia's Sacred Heart College: The first time in Australia where this versatile range has been used in a commercial setting.

[Moroca Line](#) was inspired by the heritage of traditional Moroccan textiles and weavings, and adapted to create a modern twist on the artistic symbols, designs and motifs that were traditionally created for practical, magical and religious purposes.

The appeal of [Moroca Line](#) has helped transform Paringa Hall, an elegant nineteenth-century area of the College (used as the staff meeting room) into a refreshed, engaging and warm space while continuing to complement the existing features without overshadowing any of the room's elegance and character.
